We are organization engaged in manufacturing and supplying a comprehensive assortment of Vacuum Forming Machines and Blister Packing Machines. We also deal in Plastic Waste Recycling Plants and Automatic Blade Sharpening Machines.

Profile

Established in the year 2012, we, "**Vacuum Tech Machines**", are a reputed organization engaged in manufacturing and supplying a comprehensive assortment of **Vacuum Forming Machines and Blister Packing Machines**. The offered array of machines is manufactured using premium quality raw material which is procured from the certified vendors of the market. Besides, our professionals employ high end tools and sophisticated technology to engineer the range in complete compliance with the international quality standards. These products are widely appreciated by the clients for their efficiency, dimensional accuracy, corrosion resistance, durability and excellent performance. Owing to this, the products are widely demanded in pharmaceutical, cosmetics, food, plastic and general packaging industries.

Being a client centric organization, we focus towards providing the clients with top notch quality products and hence win their trust for further dealings and consignments. To attain this objective, we have employed with us a team of competent professionals, which holds vast knowledge in this domain. Under their supervision, we have been able to fulfill the bulk requirements of the customers in an efficient and organized manner. Moreover, our professionals carry out various research activities on regular basis to offer a technologically improved array to the clients. Besides, our team members ensure that the products are delivered at the clients' end within the stipulated time slot. Every single step during the production period is undertaken in a streamlined manner to get the best of everything. To save the products from any sort of external hazard, we have built up a commodious warehouse close to our manufacturing unit, where we stock the complete range of finished products. We have also developed a quality testing unit at our manufacturing site which is handled by our quality inspectors.
